2nd International Conference on Recent Advances in Aerospace Engineering

Venue:
KITS, Coimbatore
March 29th - 30th, 2024

Mode: Hybrid

Organized by:

Division of Aerospace Engineering
School of Engineering and Technology

Karunya Institute of Technology & Sciences, Coimbatore, India

KARUNYA INSTITUTE OF TECHNOLOGY & SCIENCES

Karunya Institute of Technology and Sciences, was founded with the noble vision to raise professionals and leaders of high academic calibre and unblemished character, nurtured with a strong motivation and commitment to serve humanity. The institution is the fulfillment of the vision of its founders Late Dr. D. G. S. Dhinakaran and the present Chancellor Dr. Paul Dhinakaran. Established in 1986 as an Engineering College, it was granted an autonomous status in 1999 and declared Deemed-to-be University by the University Grants Commission (UGC) in recognition of its academic excellence by the Ministry of Human Resources Development under section 3 of the UGC Act, 1956 vide notification no 9-3-2000-U3 dated 23.6.2004 of the Government of India. Accredited by NAAC, the institution offers a wide array of Bachelors, Masters and Doctoral Degree programmes in various branches of Engineering, Biotechnology, Food processing and Agricultural Sciences. From a humble beginning of 180 students, the institution has rapidly grown to 8000+ students and 450+ faculty representing 18 academic divisions.

In the three decades of service to higher education, Karunya Institute of Technology and Sciences has made significant progression in teaching learning, research and consultancy, innovation and transfer of technology, community service and value education. Translating the vision of the Founders into action, the institution is currently engaged in finding solutions to human problems in the four major areas such as Water, Food, Healthcare, and Energy through scientific and technological interventions.

DIVISION OF AEROSPACE ENGINEERING

The Division of Aerospace Engineering at Karunya Institute of Technology and Sciences (KITS) was launched in the year 2009 with the primary objective of producing Aerospace Engineers to meet the growing demand and to serve the civilian aeronautical as well as the defense-oriented sectors. Our budding engineers acquire skills in core domains like Aerodynamics, Stress Analysis, Materials and Structures, Aircraft Design, Propulsion, Space Dynamics, Artificial Intelligence & Machine Learning, Smart Manufacturing that enable them to understand physical laws and cruise through time and space being creative and innovative, thus opening up the limitless opportunities in an endless space. The students are trained in aerospace design and analysis software and offered value-added courses in Digital Manufacturing, Artificial Intelligence in Aerospace manufacturing, Value Engineering etc., to keep them abreast with the latest developments. Over the years the Division of Aerospace Engineering has groomed 500+ engineers who have grown to occupy strategic positions at research organizations like GTRE and NAL, MNCs like Accenture, Capgemini, and Infosys, and in highly reputed companies like Quest Global, Agnikul Cosmos etc., to name a few.
